		12/11/08	Minute 215
		21/05/09	Minute 255

Policy implemented: 2003

Review Date: April 2011

Preamble to the Policy

Equal Opportunities

The College shall comply with all statutory duties in respect of equal opportunities in the areas of sex, race, age, disability, sexual orientation, transgender religion, belief and the rehabilitation of offenders. The college shall also comply with the Human Rights Act 1998 and any subsequent enactments or modifications.

Home to College Transport Policy

1. Overview and Purpose

- 1.1 Borough Councils have a responsibility to offer home to College transport to the same level for college students as they do for the same age group in school. Over the years Councils have made some changes in an attempt to reduce expenditure in this area. But most still support students up to the age of 19.
- 1.2 Each Council has its own policy so the provision may vary.
 - 1.2.1 Where funds allow, the transport assistance for over 19 year olds is supported by Financial Contingency Fund (FCF) funding.
 - 1.2.2 The geographic nature of the area and the public transport network has caused much of the Council transport to be by contract buses. Councils use season tickets on shorter routes and where public transport is better.
 - 1.2.3 Students over 19 per section 1.21 are supported by the college via a travel grant to help with cost of travelling.
 - 1.2.4 'Special Need' students often require specific transport. Responsibility is again determined by age. The College will pay a grant (see 1.2.3) toward this for eligible students, where funds allow. Local authorities may fund special arrangements such as taxis.
 - 1.2.5 The Learner Services Officer makes decisions on exceptional transport requests.
- 1.3 The College will do its utmost to provide a service that meets everybody's expectations within financial constraints. However, it is a service which helps attract students and without which many would not study.

2. Publicity

- 2.1 Students are made aware of College policy through general advertising and information given during admission interviews. Bus routes are published prior

to the start of each term and grant/transport application forms are made available as part of the admission process.

3. Policy

- 3.1 Full time students will be eligible for transport assistance between their normal residence and the college.
- 3.2 Students living within 2 miles of their place of study will not be eligible for help with transport.
- 3.3 Students will be offered transport on the basis of that which is most efficient for the College or Borough Council. This may involve using transport at set times and in a set manner. Exceptions will be considered by appeal.
- 3.4 Transport may be removed if a student is guilty of misbehaviour whilst using the service. All College rules apply whilst students are using transport paid for by the College or Council.
- 3.5 Travel grant instalments will only be paid if a student's attendance is above 80% in the period immediately prior to the payment date.
- 3.6 The Learner Services Officer will consider and decide upon exceptional transport requests and appeals.
- 3.7 In the event of emergency closures, such as inclement weather, the College will make every effort to ensure students can get homes. However the health and Safety of staff and students is paramount in these situations and it may be that the usual transport arrangements cannot be achieved. Please also refer to college procedures on inclement weather closures and permission for staff using their own cars to transport students transporting students for further information in this regard.

4. Quality

- 4.1 Quality of service will be assured by:
 - 4.1.1 Only contracting with appropriately licensed operators and by having regard to the quality with which a contractor provided previous contracts.
 - 4.1.2 Receiving minor complaints and comments from students and taking them up within a working day with the contractor and or relevant Council department. Major complaints will be referred to the College complaints system.
 - 4.1.3 Dealing promptly with complaints about students using transport.
 - 4.1.3 Regular meetings with Rhondda Cynon Taff transport officers to discuss and resolve issues.

5. Funding

5.1 Transport will be funded as follows:

5.1.1 The Local Education Authority (LEA) currently funds students aged 19 years and younger.

5.1.2 The DCELLS Financial Contingency Fund will fund students not covered by the LEA who are from lower income groups.

6. Policy Monitoring and Review

6.1 Due to the dynamic nature of the service the policy may require minor amendments during the year. However, the policy will be systematically reviewed by the Learner Services Officer in April each year.
